

HEALTHY ROSTER

Dear Parent or Guardian,

We're now offering a better way to connect with your child's Saint Joseph Health System (SJHS) Certified Athletic Trainer. Healthy Roster is a free mobile app/web-based program. It connects parents and coaches from New Prairie High School with their certified athletic trainer(s) to improve communication and care for student athletes.

The program is HIPPA compliant — meaning your child's information is secure and available only to individuals you choose. Healthy Roster will NOT disclose any of your child's personal information outside of Healthy Roster, its service providers, affiliates, vendors, and business partners except in accordance with Healthy Roster's Privacy Policy, a copy of which is located here:

<https://www.healthyroster.com/privacy-policy>

The Healthy Roster app will allow parents to connect directly with the Certified Athletic Trainer from New Prairie High School. The app allows you to track and communicate any injuries for your child and view treatments or participation status. It also gives the coach direct access to the student athlete's emergency contact information right on their phone.

If you choose to use the Healthy Roster system, please complete this form during Athletics Registration. You will receive an invitation to download the app from Healthy Roster once a profile has been created for your child. To take advantage of all the features Healthy Roster offers, you must activate your child's profile.

If you have questions, call Julie Griffin or Melissa Suth at 574-654-0299.
