INTRODUCTION

Welcome to the 2024-25 edition of the Miamisburg High School All-Sports Record Book.

This record book was originally a spinoff of yearly work done on record books for Miamisburg High School in all varsity sports. Each head coach receives a copy following the conclusion of a season with updated information in greater detail. This is the fourth edition since 2010 with the last one being in 2016. Unfortunately, the record book got a little too big and became very unwieldy, partly because the researcher expanded it along with the various categories in so many sports. It became very overwhelming to update.

So, this version has been scaled down, going from close to 600 pages to around 300 pages, but the main records have remained intact and updated.

A couple of areas were eliminated and scaled down were the various divisional records for Miamisburg in Greater Western Ohio Conference competition. Those individual and team records were combined into one set of GWOC records – eliminating four divisions. Also eliminated below the main individual records were class records (grades 9, 10, 11 and 12) for league and OHSA competition.

Records have been compiled from the years between 1899 and the 2023-24 school year. The help of coaches and athletic directors over the years has made this effort one of the best for high schools across the country. We thank present and past coaches and athletic directors for their assistance over the years.

The data points for this work is extensive and there could be something that we may have missed. At times the information that we need to confirm a record comes from game and season statistics provided by the coaches. We follow many of the requirements that the OHSA uses in determining state records which are as follows:

1. *Submitted by an OHSA member school athletic administrator on official office letterhead or through an official school email account (in our case this would include a final stat sheet and game/match information);*
2. *Submitted by a media member on official office letterhead or through the media person's official business email account;*
3. *Submitted to the OHSA by a fan with documentation verifying the accuracy of the record. Accepted would be items such as copies of newspaper clippings, copies of scorebooks, official stats documents, copies of yearbook pages, etc.*

If you think that a record is not accurate, please provide statistical information for verification, newspaper clipping, etc., to help determine accuracy. And please be nice – as this endeavor is done voluntarily. We want to make it as accurate as possible. Some claims that a record is not correct have been rejected simply because there was no verification other than an individual claiming a record by just saying they accomplished it. If a name is spelled incorrectly, please let us know. It will be corrected.

If you have any further questions or are interested in any specific sport record book, please contact me at beckmcpr@gmail.com or call me at 402-276-7547.

ACKNOWLEDGEMENTS

Putting this record book together for the first time took the assistance of many people in the Miamisburg schools and community updating the records for the first time in several years. Hopefully, in the future this will be done annually. I personally must give the credit to getting this started to Dick Church, Jr., who helped put together a basketball booklet for Mike Sorrell, the basketball coach at Miamisburg back in 1968. Dick researched the win-loss records of the basketball teams while he was at the Miamisburg News, and eventually passed much of that information on to me when I became a sportswriter, and later Managing Editor, of the Miamisburg News. A great booster of Miamisburg athletic teams and Miamisburg in general, the longest serving mayor in Miamisburg history passed way in 2022.

After numerous terms as Mayor of Miamisburg, Dick retired, and passed away. Many others have given us a great amount of information and assistance, which is very much appreciated.

We did lose several significant contributors over the past few as well. We did lose three coaches who provided valuable information on a regular basis. Longtime track and cross country coach Ralph Bergdoll passed away in December 2023. Ralph contributed a variety of scorebooks from track and cross country that spanned over 25 years. Earlier in 2023, Melvin Johnson, who coached the track and cross country squads, passed away. He was always quick to respond to my requests for pieces of information and clarification. And in 2021, Steve Kurtz, baseball coach, passed away. Steve always made sure that I was able to get his team's stats for games at the end of the season. And finally, in late 2023, John Cummings, longtime sports editor and managing editor of the Miamisburg News passed away. John kept me apprised from a distance of how the Vikings were doing and was always willing to go through bound volumes of past issues of the paper to verify information.

SPECIAL THANKS
